Tutoring Experience

With 14 years in education, I've worked extensively with students preparing for IB, A-Level, and IGCSE Geography exams, tailoring my lessons to suit diverse learning styles and focusing on core content that enhances exam performance. My students come from international schools across Europe and Asia, benefiting from my structured approach to geography.

In addition to school-level tutoring, I've guided students in conducting fieldwork and research required for internal assessments in IB Geography. This hands-on experience has equipped them with valuable skills and analytical abilities that prepare them for academic success in university-level geography and related fields.
