Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

For the past 17 years, I've helped students navigate the intricacies of geography, from population studies to environmental systems. I specialize in IB Geography, focusing on internal assessments and exam preparation. My students consistently achieve excellent results, with many securing top grades in their exams and progressing to prestigious universities.

I have also worked extensively with A-Level and IGCSE students, guiding them through complex topics such as physical geography and geopolitics. My hands-on experience as an examiner allows me to provide students with insights on what examiners look for, ensuring they excel in assessments. Many of my students have gone on to study environmental sciences, urban planning, and related fields.

Throughout my career, I've tailored my approach to suit the unique needs of each student. Whether it's preparing for a final exam or completing an internal assessment, I ensure that my students are confident and prepared. My lessons are focused on developing critical thinking skills and a deep understanding of geographical issues, preparing students for both exams and future academic challenges.
